JUSTIFICATION FOR WAIVER

~~Untitled~~

The reasons for individually illuminated letters on the building are many.
It gives the building a modern, updated look and adds aesthetic value to the community.
The building needs highly visible, and identifiable features such as this as the building is also offered up for community events, making it easier for the public to find.
Because of the set back of the building, the individual letters will not create light pollution effecting local traffic or neighboring abutters
this type of signage has a unifying and directional effect that is essential to the building
...and the community.
