Dear Mr. Gaudiello:

ARCADIS US, Inc. is writing to you on behalf of the Swains Lake Village Water District (SLVWD) and Ford Motor Company regarding the installation of a waterline that will connect the Cedar Creek subdivision (Rivers Edge) to the SLVWD water supply, replacing private well water currently in use.

We request that the Planning Board review the proposal under RSA 674:54 because of the governmental status of the SLVWD. The water main extension design was approved by the New Hampshire Water Division on March 23, 2015 (plans attached) and the installation of the water main in 2015 is a requirement of the USEPA (for the Tibbetts Road Superfund Site). Therefore, we request that the review be conducted at the next scheduled public hearing on June 2, 2015. This will effectively allow the time necessary to complete the waterline installation during the 2015 construction season.

We appreciate your time in considering this request, and we are available as needed to discuss this matter further.

Sincerely,

ARCADIS U.S., Inc.

Charles Castelluccio
Principal Scientist
