- Extreme

Data Sources

Base features are from USGS 1:24,000 scale Digital Line Graphs, as archived in the GRANIT database. Digital data in the GRANIT represent the efforts of the contributing agencies to record information from the cited source materials. Computer Systems Research Center (CSRC), under contract to the Office of Energy & Planning (OEP), and in consultation with cooperating agencies, maintains a continuing program to identify and correct errors in these data. Neither OEP nor CSRC make any claim as to the validity or reliability or to any implied uses of these data.

Fluvial Erosion Hazard Zones data and Present Slope data were prepared by the New Hampshire Geological Survey, February 2015.

Floodplain data was provided by the Federal Emergency Management Agency (FEMA).
