Double Face Center Pole
Starting @ \$720.00

Affordable & Durable Mercury & Mercury MerCruiser Outdoor Illuminated Signs

Practical and sturdy outdoor illuminated signs offer flexibility in satisfying your sign needs. The 2' x 6' signs are constructed of heavy gauge, mill finished aluminum cabinets and have faces made from Solar Grade Lexan. Crafted in black with popping white letters and red accents, the faces are virtually unbreakable and thermoformed to band the colors to the plastic. Illumination is proved by energy efficient 800 millilamp ballasts which are easily replaced.

Customizable

Signs may be customized with the addition of up to three 2' x 6' white panels. Feature Dealer Copy or Mercury Marine sub-brands: Outboards, MerCruiser, Racing and Service.

All customized signs must be approved by Mercury Marine prior to order placement.

Standard signs are built to meet or exceed 70% of current national code requirements. Sign construction may require adjustments to be compliant with State and local signage codes and standards, which vary widely.

Due to constantly changing codes the vendor cannot provide a comprehensive list of new codes. However, the following codes do require additional or special construction.

2006 IBC Compliance
California Title 24
High Wind Load Construction
Special Code Charge

JAN 15 2013

RECEIVED

Vendor will make necessary construction adjustments to comply with these codes, or you may order the standard sign and have your local sign installer perform the upgrades. Modifications made to signs in the field will void warranty, and may void the UL certification. Vendor will not provide foundation or pole structure specifications for ship only signs.

Re: Application for Sign Permit

Dear Board Members & Administrative Assistants,

It is the intention of the owner of Blue Water Marine Service, Matt Trnovsky, to replace an existing 4' x 8' wall mounted sign with a 4' x 6' internally lit wall mounted sign in the same location. The reason that this sign change is necessary is due to the new accreditation acquired by the owner to be a Certified Mercury Marine mechanic. As part of this accreditation, Mercury requires certain things to be done. One of those things is to install a sign manufactured by Mercury and their choices are limited.

Thank you for your attention to this matter.

Matt Trnovsky
