index varies less than 10%. The fixed base price of Asphalt Cement for this proposal, as published for March 2023, is \$665.00 per ton. The increase/decrease will be calculated as follows (back-up calculation shall be included with payment applications): [AC monthly price minus the AC base bid price] x [% AC in mix] x [tons of pavement placed].

Tack will be required in all projects involving pavement being laid on pavement and is subsidiary to per ton price of pavement.

Longitudinal joints will have lane joint adhesive applied before installing the abutting pavement, and joints will need to be luted if they are in danger of leaving a pronounced visible or physical ridge.

Random compaction testing and core samples may be done at any time by the request of the Road Agent. The cost of this testing will be borne by the Town. Contractor is responsible for notifying Dig Safe prior to reclamation. Due diligence should be employed with regards to raining conditions. Binder can be laid in a very light rain. Wear course should only be applied in dry conditions. Any asphalt material, binder or top, exiting from the paver screed or any screed extensions shall be considered machine work. This includes start off pads and any tip downs to roads or driveways using screed extensions on the fly. Handwork will be considered to be anything that is wheelbarrowed in and raked by hand.

All driveway and roadway tie-ins, whether base or wear course pavement, shall be milled full depth to the thickness being applied and tack coated. This is subsidiary to the per ton price of pavement.

Additional Details:

Proposal response must be based on all labor and materials per attached specifications, including "flag people" as needed or where required by the Barrington Police Department. Contractor wishing to submit additional consideration for project will do so as an addendum to this Proposal Sheet. Contractor will be required to submit a performance and payment bond.

The firm shall not, directly or indirectly, enter into any agreements, participate in any collusion, or otherwise take any action in restraint of free competitive proposals in connection with this proposal. Select Board reserves the right to reject any or all Bids, including without limitation, nonconforming, nonresponsive, unbalanced, or conditional Bids. Select Board will reject the Bid of any Bidder that Select Board finds, after reasonable inquiry and evaluation, to not be responsible.
