

Barrington Zoning Board of Adjustment

Zoning Ordinance Variance and Special Exception

Application Checklist

Please schedule a meeting with staff before submitting your application.

This checklist has been prepared to assist you in submitting a complete application to the Town of Barrington. At the Pre-Application meeting, staff will check off the items on this list that are required with your submission.

This document constitutes a public disclosure under RSA Chapter 91 – A, Access to Governmental Records and Meetings.

Date 6/15/14

Case No. 256-37-6R-14-ZBA

Owner Charles and Janice Pierson Mailing Address 158 Mica Point Rd, Barrington, NH
03825 Phone: 664-6975 Email cjpierson@metrocast.net

PART I – GENERAL REQUIREMENTS

All Graphics shall be to Scale and Dimensioned

Description of Documents Required for Complete Application. No application shall be accepted without all items marked below.

Req'd	Rec'd
-------	-------

1. Zoning Board of Adjustment Application Checklist (*this form*)
2. ZBA General Information (Article(s) and Section(s) of Ordinance)
3. Appeal and Decision
4. Fees - \$150.00 Application
\$ 75.00 Legal Notice
\$ 7.00 per US Post Office Certified Letter
5. Completed Project Application Form
Variance Special Exception Appeal
6. Notarized Letter of Authorization (from property owner(s) if property owner did not sign the application form)
7. Project Narrative

8. HOA Approval (*if applicable*)
9. Context or Locus Map (Show Surrounding Zoning Districts)
10. Existing Conditions Site Plan or Recorded Subdivision Plan to include well and septic location (may be found at Strafford County Registry of Deeds).
11. Existing Conditions Photo Exhibit (*See instruction page for submitting photos*)
Up to four photos may be shown per 8 1/2" X 11" page size
 - a. Show all existing structures on site
12. List of Certified Abutters (Include Applicant and all licensed professionals, i.e., engineer, architect, land surveyor, or soil scientist, whose seals are affixed to the plan, as well as any holder of a conservation or agricultural easement)
13. Mailing Labels (4 sets)

PART II – REQUIRED PLANS AND RELATED DATA

All Graphics and Plans Shall be to Scale and Dimensioned

1. Site Plan - ***Drawn and Stamped by Registered Land Surveyor***
 - a. 24" X 36" – 2 Copies
 - b. 11' X 17" – 6 Copy
 - c. 8 1/2 " X 11" – 1 Copy
2. Elevations: Show all sides of building and indicate building heights
 - a. 24" X 36" – 2 Copies
 - b. 11' X 17" – 6 Copy
 - c. 8 1/2 " X 11" – 1 Copy
3. Floor Plans
 - a. 24" X 36" – 2 Copies
 - b. 11' X 17" – 6 Copy
 - c. 8 1/2 " X 11" – 1 Copy
4. All drawings and any revised drawings must be submitted in PDF format

PART III – PROJECT DESCRIPTION/VARIANCE DETAILS

Case No. 256-37-GR-14-ZBA

Project Name Shed

Location Address 158 Mica Point Rd, Barrington

Map and Lot Tax Map 256, Lot 37

Zoning District (Include Overlay District if Applicable) General Residential

Property Details:

Single Family Residential Multifamily Residential Manufactured Housing
Commercial Mixed Use Agricultural Other

Use: Shed used for property maintenance equipment and tool storage

Number of Buildings: 1 Height: 12'6"

Setbacks: Front 109.7' Back 103.8' Side 22.9' Right Side 29.9' Left

Description of Request

Cite the Section of the Zoning Ordinance you are requesting a Variance or Special Exception for.

If this is an Appeal from an Administrative Enforcement Order, Planning Board Decision, or Zoning Board of Adjustment Decision, please attach pertinent documentation:

S.C.R.D. Book 1705, Page 362 Zone: General District

Dimensional Requirements Minimum Standards
Article 4, 4.1.T. & Table 2
Table of Dimensional Standards

Project Narrative: *(Please type)*

Construct storage shed for lawn and garden tools and property maintenance equipment (lawn mower, snow blower, generator, lawn and garden tool storage). No garage exists on property. Site of shed was chosen for ease of access to driveway primarily for snow removal. This new shed is replacement of older shed that was situated on the same site. Old shed was 15+ years of age and was showing signs of wear and tear. The new shed has vinyl siding that would be more weather resistant than paint and matches house's exterior with grey siding and white trim. There are no electrical, water or sewer hookups to shed.

Barrington Zoning Ordinance Requirements:

Setbacks: Front 40' , Side and Rear are 30'

Request: *(You may type and attach a separate sheet of paper)*

Request variance of 7.10' for right corner setback, and .10' for left corner setback to provide

allowance for the 30' setback requirement. Area in back of shed is heavily wooded (primarily pine/hemlock). Back view of shed from nearest property owner is filtered/screened by thickness of tree branches. Next door neighbors (Bernard and Lorie Keenan of Lot 36, on same tax map) are aware of shed's existence as well as the property line and are completely fine with shed's location.

PART IV – If this is a JUSTIFICATION FOR VARIANCE

The Zoning Board of Adjustment may not authorize a zoning ordinance variation unless ALL of the following criteria are met. Please provide evidence that the requested Variance complies by addressing the issues below.

1. Special conditions exist such that literal enforcement of the Ordinance will result in unnecessary hardship to the applicant as defined under applicable law.

To redo the project at this point would add thousands of dollars to the cost (tree removal, change driveway location, etc.) as the left side of existing driveway area is steeply sloped and heavily wooded. We do not have the extra cash outlay due to our fixed incomes, nor would we want to change the natural wooded landscape area by cutting down the trees.

2. Granting the variance would be consistent with the spirit of the Ordinance.

Shed is located in area of property primarily for driveway access for snow removal and lawn maintenance. The home on the property and location of driveway access was pre-existent to our purchase of property in 1993. Granting a 7' variance would not impact property values of our home or abutting neighbors.

3. Granting the variance will not result in diminution of surrounding property values.

New shed is upgrade from older shed and does match home's exterior construction with grey vinyl siding and white trim. Shed is located 109' from main road access and would not impact Mica Point car travel.

4. Granting of the variance would do substantial justice.

Property value would be sustained/increased, and neighbor's property would not be impacted as shed is not visible from their deck/backyard patio sitting area. Since no garage exists on property, this shed is a must for tool and equipment storage.

5. Granting of the variance would not be contrary to the public interest.

Deer and other natural inhabitants continue to roam throughout the back area of shed along property lines. Area behind shed will remain heavily wooded.

PART V – If this is a JUSTIFICATION FOR SPECIAL EXCEPTION

Please provide evidence that the requested Special Exception complies by addressing the issues below.

1. No detriment to property values in the vicinity of the proposed development will result on account of: the location or scale of buildings, structures, parking areas, or other access ways; the emission of odors, smoke, gas, dust, noise, glare, heat, vibration, or other pollutants; or unsightly outdoor storage of equipment, vehicles, or other materials.

Personal use car and truck will remain parked in driveway, and all other motorized equipment will be stored in new shed. No equipment or tools will be stored outside. Scale of new shed is in keeping with the aesthetic appeal of the property with the primary residence being significantly larger in size and scope than the shed.

2. No hazard will be caused to the public or adjacent property on account of potential fire, explosion, or release of toxic materials.

Other than gas and oil for snow removal equipment, generator and lawn mower, no other chemicals or toxic materials will be stored in shed. Property insurance policy will include shed.

3. No creation of a traffic safety hazard or substantial traffic congestion will result in the vicinity of the proposed development.

With 109' frontage to road, access to the shed would not impact vehicle travel on Mica Point Road.

4. No excessive demand on municipal services and facilities, including, but not limited to waste disposal, police and fire protection, and schools.

Would not be impacted.

5. The proposed use will not result in the degradation of existing surface and groundwater quality standards, nor will it have adverse effects on the natural functions of wetlands on the site that would result in the loss of significant habitat or flood control protection.

New shed is on same site as old shed and would not impact groundwater runoff or wetlands. Deer continue to roam behind the shed just as they have always done. Area behind the shed will remain heavily wooded.

In addition to the guiding principles specified above, the ZBA may condition the granting of a special exception upon more stringent standards if the Board determines that such conditions are necessary to protect the health and welfare of the town and its residents. Such conditions may include the following and should be addressed in the Narrative:

1. Front, side, or rear yards in excess of the minimum requirements of this Ordinance.
2. Screening of the premises from the street or adjacent property by walls, fences, or other devices.
3. Limitations on the size of buildings and other structures more stringent than minimum or maximum requirements of this Ordinance.
4. Limitations on the number of occupants and methods and times of operation.
5. Regulation of the design and location of access drives, sidewalks, and other traffic features.
6. Location and amount of parking and loading spaces in excess of existing standards.
7. Regulation of the number, size, and lighting of signs in excess of existing standards.

SALES ORDER

Order Number: 14-07
Date of Order: 3/13/2014

TERMS AND CONDITIONS

First 55 miles of shipping/delivery from Brentwood, NH is free, sites over 55 miles incur extra \$1.00 as a delivery fee. Materials carried over 100 feet from the closest truck parking site to the shed site may be charged additional \$1.00 per foot fee.

Location of the shed site, adhering to town codes, and obtaining building permits are the sole responsibility of the customer.

A clear and reasonably level site is expected, let us know if 8" or more difference in site elevation exists. Sufficient access, rocks, trees etc. are factors we need to know of.

Electrical power access must be provided or an additional fee may result.

Any unforeseen circumstances resulting in delays or other expenses to SHEDMASTER may be subject to an additional charge.

Unexpected or miscellaneous expenses incurred at site, in order to set up the shed, will be paid by the customer.

Deposit and copy of the signed sales order are required to process your storage shed order. Final payment is due at time of delivery by means of cash, check, or money order made payable to: SHEDMASTER CO.

I agree to any and all provisions, terms, and conditions written in this sales order agreement. All balances due upon completion of shed.

Re: Foundation Certification

Scope of Services: Land Surveying

1. Provide Land Surveying support on your project in Barrington, which will be limited to:
 - a. Perform a small-scale survey of your lot which will include locating existing buildings, driveways, and newly created shed foundation.
 - b. Prepare a Foundation Certification Plan. This will show the distance from the newly installed shed foundation to the boundary lines. This will prove to the Barrington Building Department that your building will meet the zoning requirements of the town.
2. **NOTE:** *If there are not enough boundary markers present for us to make a clear determination of the boundaries of the lot, then a NH Standard Boundary Survey will need to be performed. This is not a part of this estimate. At this point, this is not expected to be necessary.*
3. **NOTE:** *This estimate does not include any Zoning Board application preparation or representation. At this point, this is not expected to be necessary.*

Project Work Plan / Time Line

We will have the Certified Plot Plan done on May 19, 2014.

Project Cost:

The cost of these services will be: **\$375.00**

Paid 19 May 14 Check # 8365

Terms and Conditions:

Full payment will be due on May 19, 2014 as discussed via phone conversation.
