Re: Deborah James
100 Small Road
Barrington, NH

Madam Chair and Members of the Barrington Zoning Board of Adjustments,

On Behalf of Deborah James, Berry Surveying & Engineering (BS&E) met with the Town of Barrington Conservation Commission on November 5, 2015. At that meeting we discussed this project in some detail and it was their recommendation that the size of the deck be reduced. Given this request by that commission, we have made the length of the deck approximately 5' smaller. We have also added 11 additional plantings surrounding the deck. We believe this is a good faith effort to meet the conservation commission's request while still maintaining the visual attractiveness and usefulness of the deck that would serve the owner's needs and desires. This letter is to serve as an explanation and attachment to a plan prepared by this office with a revision date of November 16, 2015.

Thank you for your time and attention to this matter.
