PART IV – If this is a JUSTIFICATION FOR VARIANCE

The Zoning Board of Adjustment may not authorize a zoning ordinance variation unless ALL of the following criteria are met. Please provide evidence that the requested Variance complies by addressing the issues below.

- ☐ 1. Special conditions exist such that literal enforcement of the Ordinance will result in unnecessary hardship to the applicant as defined under applicable law.

Grandfathered existing structure completely in
all setback area

- ☐ 2. Granting the variance would be consistent with the spirit of the Ordinance.

making structure more conforming both
in size and setback distance

- ☐ 3. Granting the variance will not result in diminution of surrounding property values.

improving property value will
improve neighborhood values

- ☐ 4. Granting of the variance would do substantial justice.

the 100' setback will not allow
existing house to conform to Zoning Regs currently

- ☐ 5. Granting of the variance would not be contrary to the public interest.

this variance will be in keeping with
the spirit of the zoning ordinance

PART V – If this is a JUSTIFICATION FOR SPECIAL EXCEPTION

Please provide evidence that the requested Special Exemption complies by addressing the issues below.

N.A.

- ☐ 1. No detriment to property values in the vicinity of the proposed development will result on account of: the location or scale of buildings, structures, parking areas, or other access ways; the emission of odors, smoke, gas, dust, noise, glare, heat, vibration, or other pollutants; or unsightly outdoor storage of equipment, vehicles, or other materials.

- ☐ 2. No hazard will be caused to the public or adjacent property on account of potential fire, explosion, or release of toxic materials.

- ☐ 3. No creation of a traffic safety hazard or substantial traffic congestion will result in the vicinity of the proposed development.

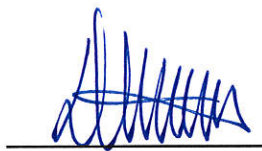

N.A.

☐ 4. No excessive demand on municipal services and facilities, including, but not limited to waste disposal, police and fire protection, and schools.

☐ 5. The proposed use will not result in the degradation of existing surface and groundwater quality standards, nor will it have adverse effects on the natural functions of wetlands on the site that would result in the loss of significant habitat or flood control protection.

In addition to the guiding principles specified above, the ZBA may condition the granting of a special exception upon more stringent standards if the Board determines that such conditions are necessary to protect the health and welfare of the town and its residents. Such conditions may include the following and should be addressed in the Narrative:

- ☐ 1. Front, side, or rear yards in excess of the minimum requirements of this Ordinance.
- ☐ 2. Screening of the premises from the street or adjacent property by walls, fences, or other devices.
- ☐ 3. Limitations on the size of buildings and other structures more stringent than minimum or maximum requirements of this Ordinance.
- ☐ 4. Limitations on the number of occupants and methods and times of operation.
- ☐ 5. Regulation of the design and location of access drives, sidewalks, and other traffic features.
- ☐ 6. Location and amount of parking and loading spaces in excess of existing standards.
- ☐ 7. Regulation of the number, size, and lighting of signs in excess of existing standards.

SITE / CONTEXT PHOTOS

Using Guidelines Below

Provide color photographs showing the site and surrounding buildings/properties in order to provide staff, boards and commissions with a visual impression of the current site conditions.

1. Photos are to be taken looking toward the site and adjacent to the site.
2. Photos should show adjacent improvements and existing on-site conditions.
3. Number the photographs according to view.

PROJECT NARRATIVE

My intent is to make overall footprint more conforming both in size and distance from the river. I would like to remove 226 square feet of the existing deck/well area and add 179 square feet of first floor living space along the existing rear of the house as shown on the site plan attached. This would DECREASE my overall footprint by 47 square feet and move the new area of the structure approximately 5 feet FURTHER BACK from the Isinglass River. The new plan/structure would be more conforming compared to the existing conditions-- following the intent and the spirit of the zoning ordinance.

REQUEST

We request a variance from Section 11.2(2) that would allow us to increase the existing footprint of the nonconforming house by 179 square feet as shown on the site plan attached.

ARTICLE 11 SHORELAND PROTECTION DISTRICT OVERLAY (SDO)

11.1 ... Purpose and Intent

The purpose of the Shoreland Protection District is to preserve the overall quality of surface waters, and their adjacent environs, in the Town of Barrington in order to protect the public health and maintain the ecological integrity associated with these resources. More specifically, the intent of the regulations established in this Article are:

11.1(1)Maintain the quality of surface waters to insure protection of groundwater and drinking water supplies; and

11.1(2)Conserve and protect the aquatic and terrestrial habitat associated with the town's rivers, lakes and ponds; and

11.1(3)Preserve and enhance the aesthetic values associated with shoreline areas in order to maintain the town's rural character; and

11.1(4)Encourage those uses that can be appropriately located adjacent to the town's surface water resources.

11.2 ... District Defined

11.2(1)No structure of any type including, by way of example and not by way of limitation, all buildings, garages, sheds, parking lots and driveways, may be way of limitation, all buildings,

LAND USE OFFICE
APR 23 2015
RECEIVED

garages, sheds, parking lots and driveways, may be constructed within seventy-five (75) feet of the shoreline of any year-round stream, or any lake or pond over two (2) acres.

11.2(2)For the Isinglass River this overlay zone shall consist of all properties located within one hundred (100) feet of the mean high water mark of the river, wherein no structure of any type including by way of example and not by way of limitation, all buildings, garages, sheds, parking lots, and driveways, may be constructed.

11.3 ... Exemptions from Regulations

11.3(1)Lots of record that existed prior to July 28, 1988 (which was the effective date of the original version of this provision) are exempt from these shoreland setback provisions to the extent that it can be demonstrated that conformance is impossible; however, any structure on such lots must conform as fully as possible.
