

MEMORANDUM

To: Planning Board, Barrington

From: Conservation Commission, Barrington

Subject: IBEW Site Plan Review

Date: October 4, 2015

At our October 1<sup>st</sup> meeting, the conservation commission reviewed the work proposed at the IBEW site on Route 4. The proposed work avoids negative impacts to natural resources, therefore we have no objection to this project.

Furthermore we appreciate that the wetland buffer is being respected, imperviousness is being decreased on the lot, and that the engineer has taken great effort to plan for the collection and treatment of the runoff prior to discharge from the site.

This plan is not only a “low impact” design, but appears it will even improve upon the quality of water quality currently leaving the site. This approach should be a model for all projects planned in our town.

Thank you for the opportunity to comment on this proposal.

Respectfully,

Pam Failing  
Vice Chair, Barrington Conservation Commission
