PART III

Project Narrative:

Handicap accessible deck off bedroom for my mother and niece. My niece has ALS and is confined to a wheelchair and needs room to turn around.

Barrington Zoning Ordinance Requirements:

The required deck was too small and blocked slider entry.

Request:

We would like to build a 8x11ft deck handicap accessible for mother and niece.

PART IV

1. Special conditions exist such that literal enforcement of the Ordinance will result in unnecessary hardship to the applicant as defined under applicable law.

The deck needs to be handicap accessible for my niece who is in a wheelchair. She needs to be able to turn her chair. My mother is also handicapped.

2. Granting the variance would be consistent with the spirit of the Ordinance.
It is a reasonable size deck made just large enough to be usable for handicap residents.

3. Granting the variance will not result in diminution of surrounding property values.
Definitely not.

4. Granting the variance would do substantial justice.
If my niece and mother could sit out there and enjoy the view, it would seem very just. My niece has ALS and is wheelchair bound.

5. Granting of the variance would not be contrary to the public interest.
It would not harm the public in any way.

PART V

1. No detriment to property values in the vicinity of the proposed development will result on account of: the location or scale of buildings, structures, parking areas, or other access ways; the emission of odors, smoke, gas, dust, noise, glare, heat, vibration, or other pollutant; or unsightly outdoor storage of equipment, vehicles, or other materials.
Everything we have done, there has been for the betterment of property values.

2. No hazard will be caused to the public or adjacent property on account of potential fire, explosion, or release of toxic materials.
No hazard.

3. No creation of a traffic safety hazard or substantial traffic congestion will result in the vicinity of the proposed development.
No, it is an 8 x 11ft deck away from the road.

LAND USE OFFICE

RECEIVED

4. No excessive demand on municipal services and facilities, including, but not limited to waste disposal, police and fire protection, and schools.

No

5. The proposed use will not result in the degradation of existing surface and groundwater quality standards, nor will it have adverse effects on the natural functions of wetlands on the site that would result in the loss of significant habitat or flood control protection.

No, none.

In addition to the guiding principles specified above, the ZBA may condition the granting of a special exception upon more stringent standards if the Board determines that such conditions are necessary to protect the health and welfare of the town and its residents. Such conditions may include the following and should be addressed in the Narrative:

- ☐ 1. Front, side, or rear yards in excess of the minimum requirements of this Ordinance.
- ☐ 2. Screening of the premises from the street or adjacent property by walls, fences, or other devices.
- ☐ 3. Limitations on the size of buildings and other structures more stringent than minimum or maximum requirements of this Ordinance.
- ☐ 4. Limitations on the number of occupants and methods and times of operation.
- ☐ 5. Regulation of the design and location of access drives, sidewalks, and other traffic features.
- ☐ 6. Location and amount of parking and loading spaces in excess of existing standards.
- ☐ 7. Regulation of the number, size, and lighting of signs in excess of existing standards.

SITE / CONTEXT PHOTOS

Using Guidelines Below

Provide color photographs showing the site and surrounding buildings/properties in order to provide staff, boards and commissions with a visual impression of the current site conditions.

1. Photos are to be taken looking toward the site and adjacent to the site.
2. Photos should show adjacent improvements and existing on-site conditions.
3. Number the photographs according to view.
