Date: April 6, 2017

To: Barrington Zoning Board of Adjustment

Re: 251-64-GR/SDAO-17-ZBA (Owners: Steven F. & Pamela M. Lenzi Revocable Trust)  
Request by applicant for a variance from Article 10 Wireless Communications 10.4(3) and 10.4(5) Dimensional Requirements to construct a 150' tall wireless communications facility that will be surrounded by a fence that will be located 60' from wetlands located on Bumford Road (Map 251, Lot 64) in the General Residential (GR), Varsity Wireless Investors, LLC; 290 Congress Street, 7<sup>th</sup> Floor; Boston, MA 02210

The application above was submitted by Francis D. Parisi, Esq. using a format that included both the ZBA Variance application and the Site Plan application for the Planning Board in the same document. Barbara has taken the time to tab the different sections of the application packet for your ease in review of the ZBA application.

Please let me know if you have any questions prior to the meeting.

Sincerely,

Marcia J. Gasses

Town Planner & Land Use Administrator
