

**Town of Barrington**  
New Hampshire

January 18, 2023

To: The Select Board

From: The Transfer Station Review Committee

The Transfer Station review committee recommends implementing a price increase on all Town Trash Bags. Large bags from \$13 to \$17 (31% increase) and small bags from \$9 to \$12 (33% increase). The price of bags has remained stagnant since 1998 (25 years). The committee has given considerable thought into recommending this increase based on the ongoing yearly increases in our hauling and tonnage rates. This increase could add approximately \$50,000 to our revenue stream. This is assuming the demand stays the same with the price increase.

The effective date will be Tuesday January 24, 2023. Although this is short notice for our residents, the committee hoped to avoid an over buying situation that would result in a rapid depletion of our current inventory.

We appreciate your support,  
The Transfer Station Review Committee
