Barrington, NH Fuel Adjustment Example

Transportation Fee per haul rates will be subject to a periodic fuel adjustment. The adjustment would be based on the increase or decrease of diesel fuel cost, as measured by the U.S.

Department of Energy, Energy Information Administration, (website

<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>) for the New England region, from the established baseline of \$4.00 per gallon (including taxes) of diesel fuel.

The variance when comparing the DOE index to the established baseline will be applied to the volume of fuel used, which will be fixed at 7.2 gallons per haul. Adjustments will be made bi-annually on January 1 and July 1, based on the average cost of diesel for the six months prior to adjustment (7/1/22 to 12/31/22 for 1/1/23 adjustment).

Charge Fuel Adjustment Example:	Average Fuel Price Per DOE	= \$5.475 per Gal.
	Established Baseline Fuel Price	= \$4.00 per Gal.
	Increase	= \$1.475 per Gal.

Fuel Adjustment (\$1.475 x 7.2 Gallons) = \$10.62 charge per haul

Credit Adjustment Example:	Average Fuel Price Per DOE	= \$3.00 per Gal.
	Established Baseline Fuel Price	= \$4.00 per Gal.
	Decrease	= \$1.00 per Gal.

Fuel Adjustment (\$1.00 x 7.2 Gallons) = \$7.20 credit per haul

Example cost to Town - Hauls 7/1/2022 – 12/31/2022 = 209 x \$10.62 = \$2219.58 / 6 Months = \$369.93 per month charge.

Example credit adjustment – Hauls 1/1/2023 – 6/30/2023 = 209 x \$7.20 = 1504.80 / 6 Months = \$250.80 per month credit.
