**SPECIFICATIONS EXCEPTION FORM**

In the interest of fairness and sound business practice, it is mandatory that you state any exceptions taken by you to our specifications.

It should not be the responsibility of the Town of Barrington to ferret out information concerning the materials which you intend to furnish.

If your bid does not meet all our specifications you must state it in the space provided below:

No Exceptions

---

---

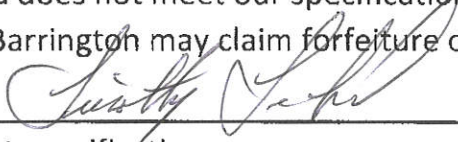

---

---

---

Bids on equipment, vehicles, computers, supplies, services and materials not meeting specifications may be considered by the Town, however, all deviations must be listed above.

If your Bid does not meet our specifications, and your exceptions are not listed above, the Town of Barrington may claim forfeiture on your Bid, if submitted.

Signed 

I DO meet specifications

Signed \_\_\_\_\_

I DO NOT meet specifications as listed in this Bid; exceptions are in the space provided

Failure to submit this form with your Bid response may result in your Bid being rejected as unresponsive.

**Bid Form, continued**

**NON-COLLUSION STATEMENT**

The Undersigned certifies under penalties of perjury that this Bid in all respects is bonafide, fair and made without collusion or fraud with any other person. As used in this paragraph, the "PERSON" shall mean any natural person, joint venture, partnership, corporation or other business or legal entity.

EZ Spread™

# BASIC CONTROL SYSTEMS FOR DEPENDABLE SPREADING APPLICATIONS

The EZ Spread™ features the most reliable controls for basic spreading applications. Designed for granular and pre-wet applications, the EZ Spread electronic spreader control system from Cirus combines core functionality with user-friendly operations.

EZ Spread  
3 Channel Control

EZ Spread  
2 Channel Control

## Product Summary

- Ground speed oriented or manual spreader control
- Available in 2 and 3 channel models (EZ 2 or EZ 3)
- Open loop proportional control for auger/conveyor, spinner and auxiliary (pre-wet, X-conveyor) channels
- Adjustable settings from 0-10
- Back lit control panel
- Programmable trim settings

## Proportional Channels

- Independent control of 2 or 3 proportional channels
- Usually configured for auger/conveyor, spinner and either cross auger or pre-wet

## Ground Speed Options

- Ground speed triggered (GST): on with truck motion, off with truck motion
- Ground speed oriented (GSO): on with truck, automatically adjusts output to compensate for truck speed, off when truck stops
- Manual: no ground speed interaction

## Hydraulic Trimming

- Configuration mode for hydraulic trimming without manual trim pots

## Blast & Pass (Pause)

- Programmable blast included (on/off, timed)
- Use pass switch to pause spreading
- System powers up with pass active to prevent indoor spreading

## Output Signal

- Multiple frequency settings for ease of valve compatibility

## Power Safety

- Power Safe™ signals prevents random grounds powering any hydraulics system attached (auger, spinner, conveyor, etc.)
- Channel Safe™ detects and protects against open or short circuits on hydraulic drive channels

## Operating Temperature Range

- Minimum: -20 degrees Celsius, Maximum: 70 degrees Celsius

## Power Requirements

- Minimum: 11 Volts DC
- Maximum: 15 Volts DC
- Maximum: 10 Amps
- Internal fuse rated at 10 Amps

# **DownEaster**

**BUILT TOUGH, BUILT TO LAST**

**Since 1979**

# **SCISSOR HOIST DUMP BODIES**

2015 GM 60" CA 3500 shown

## ***Designed with the features you expect.***

Reliable and rugged scissor hoist, for proven load dumping of the heaviest materials.

10 Gauge construction throughout, with structural channel understructure.

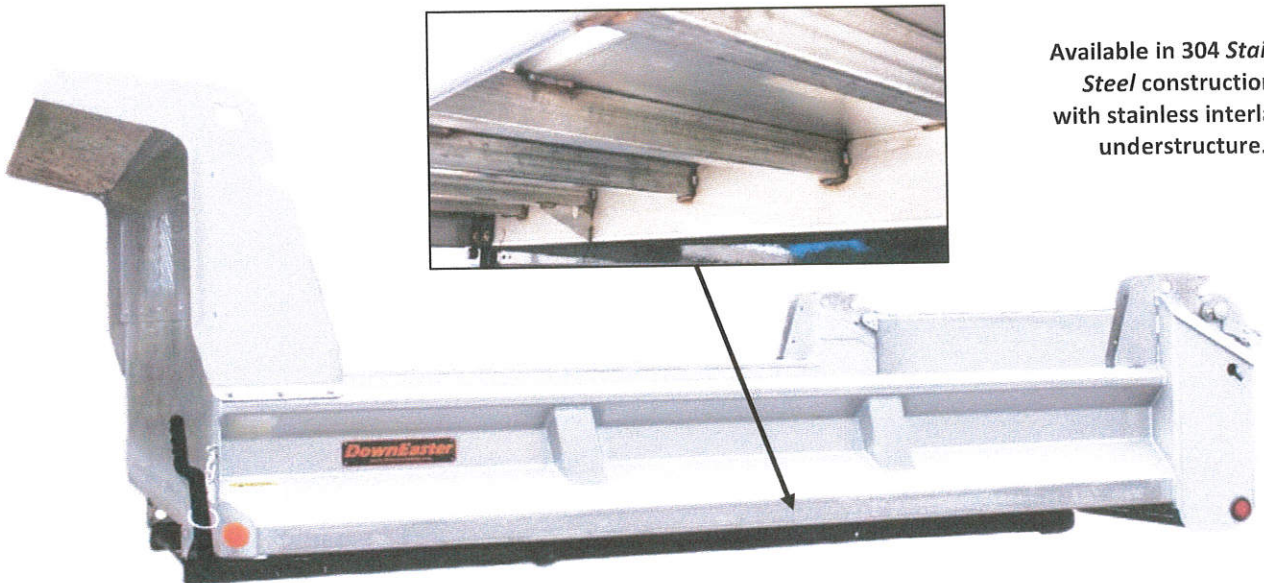

Easy release, locking pins for tailgate, top and bottom.

Bolt on Sub frame, hoist and body, for ease of installation, transfer or replacement.

LED lighting for visibility and less maintenance.

2.5" lower bed height than previous models

***Shipped fully assembled on hoist, sub frame and painted!***

Available in 304 *Stainless Steel* construction, with stainless interlaced understructure.

## STANDARD FEATURES

All models are bolt on installation.

Two Year Limited Warranty

### GENERAL

- \* 10 gauge construction throughout.
- \* Dirt shedding , sloped design at side plate and tailgate top
- \* Double panel side plates equal over 1/4" thickness.
- \* Full depth 3/16" rear corner pillars incorporate recessed lighting, keyhole banjo eyes and lower tailgate pin receiver.
- \* All lighting is LED rubber mounted and NTEA and Federal compliant.
- \* 2 1/2" shorter deck height (9' only)
- \* Mounting height of 9.5" chassis to floor (9' only)
- \* 10" board extension pockets
- \* Self aligning rear latch release for the top gate pins
- \* Integrated tarp hooks
- \* DuPont™ Imron® Elite black oven cured paint w/ epoxy primer

### FLOOR & UNDERSTRUCTURE

- \* 4" x 5.7# Channel long sills and 3" channel cross members (9')
- \* 6" x 8.2# Channel long sills (10', 10.5' 11')
- \* 3/16" Stainless formed 7" long sills (SS body)
- \* 3" stainless tubing, interlaced cross members (SS body)
- \* Two piece 10 gauge floor with 45 degree sloped corners where meets seamless side plate.
- \* Greasable Bronze bearings for underbody release mechanisms

### TAILGATE

- \* Formed 10 gauge inner, outer and end panels.
- \* 1" hardened pins, (1" Stainless) with plasma cut latch receiving lock fingers.
- \* Adjustable 1/4" chain for spreading aggregate material & holding gate in down position.

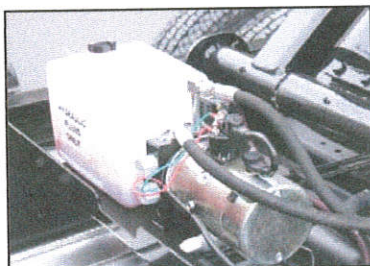

### CAB SHIELD

- \* Bolt on, 10GA (12GA SS) cab protector / overhang, for ease of install & future optional / custom overhang.
- \* 12" (1/4 cab) overhang, standard. (8', 9', & 11')
- \* Pre punched tarp mounting provisions.
- \* Slotted dual windows

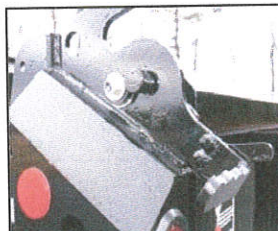

### OPTIONS

- \* Stainless body construction (excluding DED0888)
- \* 24" Cab Shield (1/2 cab)
- \* Tarp assembly, manual or spring loaded.
- \* 3/16" floor (on 9' & 10' only)
- \* Coal chute, installed, painted or stainless
- \* Backup, running or strobe lights in apron

Dual action pump, shipped installed

One handed, self aligning, locking latch w/ integrated spring retention

\*( ship weight based on gas engine drive & standard chute )

## STANDARD FEATURES

- \* 14GA 304 SS hopper construction
- \* 12GA 304 SS conveyor bed
- \* 3 vertical gussets per side
- \* Bolt together hopper extensions
- \* Hinged / removable tapered top screens
- \* 45 deg. Sloped sides
- \* Double bend top rail, all around
- \* Formed over rail w/ built in chain shields
- \* 1 1/8" diameter conveyor shafts w/ 6T cast sprockets
- \* 662 Pintle chain w/ 8500# tensile strength
- \* Greasable, self aligning, drive bearings throughout
- \* Adjustable feed gate w/ salt flap.
- \* 4 corner tie down points
- \* Enclosed chute w/ 2 internal, & 3 external, adjustable spreading spring loaded locking rods

## DRIVE OPTIONS

- \* Briggs & Stratton 10.5 HP
- \* Honda 11 HP
- \* Honda 5.5 HP, self contained gas over hydraulic
- \* Direct, hydraulic drive (requires host vehicle power)
- \* 3/4 HP Electric single drive motor, thru 20:1 reduction gearbox
- \* **DUAL** electric drive motors (w/ variable speed control, for spinner only)
- \* **Premium DUAL** electric drive motors (w/ variable speed control, for both motors)

## OPTIONS

- \* Wireless remote control (gas only)
- \* Extended chute (12")
- \* 24 group marine battery
- \* Inverted - V deflector (std on electric & 8.0 yard)
- \* Flip chute (N/A for dual electric)
- \* Polypropylene spinner disc

## NOTES

1. welded hopper, extensions N/A
2. 5 gussets per side, 10' conveyor
