Barrington, NH 03825

Dear Mr./Mz. Chairman,

Due to important personal matters yesterday, I was unable to attend the hearing of November 6, 2018, concerning the Barrington Shores Campground, owned by Mr. Todd Green, who is seeking to create an additional 27 campsites on his property.

Since I am an immediate abutter to the campground, I have some concerns.

Our family has been living in the house at 168 Hall Road for 27 years. To be honest, in all of those years there was not a single incident whereby Campground Management or visiting campers have ever infringed on our privacy.

Yes, at times there is music; and yes, there is noise. But it all has occurred within comfortable distance.

I am the last person to begrudge anyone having a good time. However, this new proposal by Mister Green to add 27 new campsites adjacent to the property boundary, is greatly concerning to me.

I cringe to think that when I step out of my side door and find people cooking dinner, playing music, playing with their children, that it will be most uncomfortable to view and listen to.

As I said before, campers are entitled to enjoy their vacation but not at the expense of my privacy and peace of mind.

Therefore, I strongly object to Mister Green's proposal to develop an additional 27 campsites in the vicinity of the property's boundary.

I hope the Barrington Planning Board will look carefully at the proposal and will take into consideration my concern.

I will forward a copy of this letter to Mr. Todd Green. I am sure there will be other Planning Board meetings regarding his proposal to expand. Hopefully, the issue will be solved to everybody's satisfaction.

Sincerely,

Luzi Pantano
