Rt. 125 (Calef Highway) & Pierce Road, Barrington, NH
Tax Map 263, Lots 13.1, 13.2, 18 & 19
JBE Project No. 17082.1**

Dear Board Members:

Jones & Beach Engineers, Inc., on behalf of the applicant, Hard Rock Development, LLC respectfully requests a continuance for the above-referenced project to the scheduled September 4th, 2018 Planning Board meeting.

Subsequent to our initial Planning Board hearing, the New Hampshire Department of Environmental Services in conjunction with N.H. Fish & Game, U.S. Corps of Engineers, and U.S. EPA requested a pre-application meeting to discuss the potential environmental impacts of the project. In addition, a Site Walk was requested by the regulatory groups and was held on July 9th to view the existing site.

As part of the regulatory review and review by the Town of Barrington, a hydrogeological study of the area was requested to ensure there are no adverse impacts to the nearby Tamposi Water Reserve. The applicant is currently working with Emery & Garrett Groundwater Investigations to complete the required study.

The applicant is therefore requesting a continuance of the public hearing in order to finalize the hydrogeological study and revisions requested by the afore mentioned regulatory groups.

If you have any questions or need any additional information, please feel free to contact our office. Thank you very much for your time and we apologize for any inconvenience.

Very truly yours,
JONES & BEACH ENGINEERS, INC.

Barry Giel, PE
Vice President
