Re: Request for a Minor Extension on Variance Approval
Christmas Dove Project off from NH Route 9

Madam Chair and Members of the Barrington Zoning Board of Adjustment,

On behalf of the new owners of the project behind Christmas Dove, Dove Development Group LLC, Berry Surveying & Engineering (BS&E) is requesting a 4 month extension to the variances granted by the Barrington Zoning Board on July 20th 2016. These variances are set to expire on July 20th 2021.

Since the sale of the property and project the owners have requested that BS&E conduct the conceptual layout and final engineering for a Mixed Use Town Center project design. In March we met with the Barrington Planning Board under Design Review and the project was very well received, with many suggestions made by the Planning Board. Since that time we have been conducting the final design and engineering on the project which is set to be submitted in June of 2021. Given this is the holiday season we would like to allow time for the planning board to meet on the project and accept our formal application.

Please let us know if you have further questions.
