Tax Map 235, Lot 2 1-1 & 3

Venessa,

On behalf of our client, we would like to request a 1-year extension of the current approval for this conditionally approved project. Upon approval by the Barrington Planning Board we received comment from the NHDOT that has required a larger additional study. Due to this the project scope will be required to change which will require additional design and engineering to take place. We anticipate having a revised application design before the board later this year for discussion for a site plan modification approval.

Thank you all for your time and attention to this matter.

Very truly yours,
BERRY SURVEYING & ENGINEERING

Christopher Berry, SIT
Principal, President
