

3/1/2022

I, Mary Jane Corcoran, have applied for a building permit for our property on Jillette Road. I am in clear understanding that the new class VI/private road regulations request a 10% improvement to the roadway. The cost of our 700 sq ft cabin will be approximately \$80,000 and we are prepared to allocate \$8,000 towards road improvements as recommended by the road agent. We are waiting to meet with the road agent and get his recommendation. We will be willing and able to complete this obligation as soon as the select board confirms that this improvement will meet the requirement. Any questions, please call me at 603-305-2992.

Thank you for your  
consideration.
