RE: Drew Pond LLC, NH Route 9

Ms. Price, Mr. Chairman, Members of the Barrington Planning Board,

Berry Surveying & Engineering has been very involved in the construction process of the Drew Pond, LLC project off Route 9. We have conducted bed-bottom inspections of stormwater practices, bed-bottom inspections of the septic effluent disposal areas, conducted operational inspections of the Stormwater Best Management Practices, and conducted Stormwater Pollution Prevention Plan inspections for both phases of the project.

To the best of our knowledge and belief, the project has been constructed in accordance with the approved plans. Revisions to the effluent disposal areas were made in the approval process with NHDES. At the present time it is our opinion that the project is complete.

Please let us know if you have further questions.
