

Ms. Irvine,

I am writing to express my concern about the proposed subdivision outlined at the following link:

<https://www.barrington.nh.gov/land-use-department/pages/lots-38-39>

A subdivision of this size in such close proximity to Nippo Pond will significantly damage the ecosystem and cause short and long term environmental concerns.

The Nippo Lake Association, and its members, have already had to mitigate the environmental damage done by the same developer, who owns the Nippo Lake Golf Course. This mitigation has taken the form of very costly alum treatments to the lake required to combat cyanobacteria outbreaks and road/shoreline fixes to prevent golf course runoff from negatively impacting the lake.

I plan on attending the meeting on December 4th. I appreciate your attention to my concerns.

Sincerely,

Matt Kornguth
