Re: Bending Brook  
Mallego Road  
Tax Map 239, Lot 35, Barrington, NH

**Permit: AoT-2394**

Dear Applicant:

Based upon the plans and application, approved on June 6, 2023, we are hereby issuing RSA 485-A:17 Alteration of Terrain Permit AoT-2394. The permit is subject to the following conditions:

**PROJECT SPECIFIC CONDITIONS:**

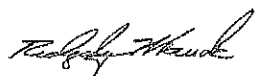

1. Plans by Beals Associates, PLLC, entitled "Bending Brook, Residential Development", latest revisions dated June 5, 2023 and supporting documentation in the permit file are a part of this approval.
2. **This permit expires on June 6, 2028.** No earth moving activities shall occur on the project after this expiration date unless the permit has been extended by the Department. If an extension is required, the request must be received by the department before the permit expires. The Amendment Request form is available at: <https://www.des.nh.gov/land/land-development>
3. Stormwater drainage lines and infrastructure connecting to Mallego Road shall not be constructed until a drainage analysis of the contributing area to the drainage lines is submitted to the Department for review and approval

**GENERAL CONDITIONS:**

1. Activities shall not cause or contribute to any violations of the surface water quality standards established in Administrative Rule Env-Wq 1700.
2. You must submit revised plans for permit amendment prior to any changes in construction details or sequences. You must notify the Department in writing within ten days of a change in ownership.
3. You must notify the Department in writing prior to the start of construction and upon completion of construction. Forms can be submitted electronically at: <https://www.des.nh.gov/land/land-development> . Paper forms are available at the referenced web address.
4. **Upon completion of construction, a written notice signed by the permit holder and a qualified engineer shall be submitted to the Department, in accordance with Env-Wq 1503.21(c)(1), stating that the project was completed in accordance with the approved plans and specifications.** If deviations were made, the permit holder shall review the requirements in Env-Wq 1503.21(c)(2).
5. **All stormwater practices shall be inspected and maintained in accordance with Env-Wq 1507.08 and the project Inspection and Maintenance (I&M) Manual.** All record keeping required by the I&M Manual shall be maintained by the identified responsible party and be made available to the department upon request.

6. This permit does not relieve the applicant from the obligation to obtain other local, state or federal permits that may be required (e.g., from US EPA, US Army Corps of Engineers, etc.). Projects disturbing over 1 acre may require a federal stormwater permit from EPA. Information regarding this permitting process can be obtained at: <https://www.epa.gov/npdes/2022-construction-general-permit-cgp>
7. If applicable, no activity shall occur in wetland areas until a Wetlands Permit is obtained from the Department. Issuance of this permit does not obligate the Department to approve a Wetlands Permit for this project.
8. This project has been screened for potential impact to known occurrences of protected species and exemplary natural communities in the immediate area. Since many areas have never been surveyed, or only cursory surveys have been performed, unidentified sensitive species or communities may be present. This permit does not absolve the permittee from due diligence in regard to state, local or federal laws regarding such communities or species. This permit does not authorize in any way the take of threatened or endangered species, as defined by RSA 212-A:2, or of any protected species or exemplary natural communities, as defined in RSA 217-A:3.

Sincerely,

Ridgely Mauck, P.E.  
Alteration of Terrain Bureau
