

I am formally requesting to appear before the Barrington Planning Board to Request a One Year Extension regarding case file: **251-63-RC-21-SR** to **19SEP2025** for our Approved Site plan.

My reasoning is simple: The failed, frivolous and completely unnecessary Lawsuit against my business (2A Tactical LLC) by the Town of Barrington caused us to be unable to secure a construction loan. By the time the Town dropped the lawsuit, the cost of building materials had skyrocketed due to the manufactured covid crisis, which then put me in no position to be able to afford said building project. There are other factors, such as stressors on my PTSD, on my staff, a very real and significant slump in the firearms market, a massive internal theft by an employee and other factors that I could list.

Given my relationship with the town, I would expect the Planning Board to be charitable with my request for an extension.

I look forward to seeing the Planning Board in person.
