

## What Barrington Voters Need to Know About the Proposal to Build a New Town Hall

### The Advantages of the Proposed New Construction:

- A high-efficiency modern building
- Sized to the needs of the town now, with room to expand if needed in the future
- Offers community meeting space
- Built on land the town owns at the site of the old Town Hall
- Low borrowing costs at this time
- Low tax impact

### Why Building a New Town Hall is the Best Alternative:

- Renovating the former Town Hall will be too expensive to make it habitable, and voters have rejected this option twice.
- Continuing to rent temporary quarters that are also inadequate is not in the town's best interest.

**Vote!**  
**March 10, 8 am—7 pm**  
**Barrington Middle School**

*The proposed new Town Hall will be a building the residents of Barrington can be proud of.*
